Government has set up a National Facilitation Committee (NFC) under the Chairmanship of Cabinet Secretary for streamlining the facilitation at airports. An executive committee under the Chairmanship of Cabinet Secretary for streamlining the facilitation at airports. An executive committee under the Chairmanship of Secretary (Civil Aviation) has also been set up to implement the decisions taken by the NFC. If considered necessary, Government also convenes meetings from time to time with the representatives of Customs, Immigration, CISF etc. to ensure smooth passenger movement at airports.

In addition to the above, AAI convenes meetings with agencies working at airports at regular intervals to sort out the various issues relating to passenger handling. The airports Operations Committee chaired by the Airport Director meets every month and discuss all these issues thoroughly and find solutions to increase the efficiency of passenger handling in the terminals.

(a) whether Government are successfully maintaining the requisite percentage of SCs and STs reservation in jobs in the Ministry and its various organistions;

(b) if so, the details of the status, organisation-wise;

(c) if not, the details of the backlog status and steps taken to fill up the vacancies; and

(d) the reasons as to why the number of ST representation in Indira Gandhi Rastriya Uran Academi (IGRUA) is less as compared to SCs?

THE MINISTER OF STATE OF THE MINISTRY OF CIVIL AVIATION (SHRI PRAFUL PATEL: (a) The number of SC employees in all Organisations under the Ministry is more than the precribed percentage *i.e.* 15% except BCAS where it is 14.63%. (*)Representation as on 31.12.2005

(#)Representation as on 1.1.2006

In pursuance of the directions of the Government, all Organisations under the Ministry were instructed in August 2004, to launch the Special Recruitment Drive to fill-up the backlog direct recruitment vacancies for SCs and STs in their respective organisations. As a result of this drive, all organisations, which had backlog vacancies, have considerably reduced the number of backlog vacancies reserved for SCs/STs

(d) Vacancies in IGRUA are mostly of technical nature, like Pilots, Engineers, Ground Instructors, Aircraft Technicians etc. Efforts made in the past to attract ST candidates did not meet with desired results. IGRUA is striving hard to attract reserved category candidates to fill up the vacancies. Since attractive pay and fringe benefits are being offered elsewhere in the aviation sector. IGRUA does not seem to be preferential choice including for ST candidates.
